Kind Attn: The President

Sir,

Sub: Operation & Maintenance Contract for STP - Reg.
Ref: Your mail dated: 18.11.2017

This has reference to the above subject and further to your mail, we are furnishing our scope of work along with the charges for operating the system as below.

SCOPE OF WORK:

The plant shall be operated for 7 days a week.

As the plant has to be operated on statutory holidays mentioned below, Extra OT has to be paid to us extra which is not included in the quote.

The operator employed by us in the shift shall be competent enough to run the plant and also to attend the trouble shooting apart from explaining the operations & other basic requirements. The operator shall also maintain the data in the log sheet.

Operation:

- Our operators shall run the STP continuously. Disposal of the treated sewage water is not covered under our scope.
- Our operators shall trouble shoot the minor problems like breakage of PVC pipe in STP, Rope replacement in the pump, Greasing of the pump, oil refilling / Topping up of oil in the pump & blower, change of pulley belts, air filters cleaning.

OPERATOR DETAILS

STP

Three Shift - Operator	-	3
Reliever	-	1
Total no. of operators	-	4

PRICE SCHEDULE:

Our charges towards Operating of STP as mentioned above - **₹ 75,000/month**

NOTE

The above price is excluding GST of 18.0% which would be extra to your account towards labour charges.

One month advance payment to be released along with the order for us to mobilize the manpower.

Payment to be made before 10th of every month for which the bill would be submitted on 1st of every month.

Agreement should be executed for a minimum period of one year and there after subject to confirmation / revision of rates.

To:

Mrs. N. Mahalakshmi,
Principal,
The PSBB Millennium School, Periyakattupalayam, Cuddalore

Dear Principal Madam,

24 March 2018

Sub: Request Permission to Repair and Restore Underground Drainage Pipeline

- As you are aware, the township's underground drainage network pipeline runs along the Compound Wall surrounding your illustrious school which was sealed by Revenue Officials sometime in September 2017. Now, the officials have permitted to complete the network.
- Since accessing the pipelines require passage through the School, We wish to request you to kindly permit us to repair and restore the underground pipeline. We would be most grateful for your assistance. We hope to expedite and complete the work within a couple of days.
- Our workers will enter by any entrance during any hours and time that would be most appropriate, and would be under the direct supervision of our executive engineer at all times.
- We will take extreme care and precautions to be least obtrusive and will place no demand or burden on the school, its personnel or resources. We will supply our own water too. In case of any damage to school property, we will adequately compensate the school.
- At the end of the work, we will clean up after ourselves and will not leave any debris behind.
- We would be most willing, available to discuss and accede to any stipulations or conditions the school may wish to impose and would be glad to sign a memorandum of understanding or undertaking towards this collaborative project.

We look forward to your kindest cooperation.

With best regards
